

## ERIC "KLEANKUT" DIXON

MORE THAN A BARBER... AN ARTIST

Dedicated and innovated master barber with extensive experience. His artistic background is what he credits as how he is able to achieve the detail and the intricacy of his designs. Eric's clean lines and attention to detail has made him more than deserving of his professional nick name, KleanKut. Klean Kut is not only technically skilled and licensed, but he is also battle ready. He has already competed and won several barber battles. Competent in everything from design, to male hair units, to facials, there are no limits to what he can do. When not traveling or competing nationally, he is producing unique styles and guaranteeing customer satisfaction for everyone he services in his private boutique location.
